BSc Computer Science graduate with hands-on experience in web development and software projects. Skilled in Python, JavaScript, and modern technologies with internship experience in building responsive applications. Seeking opportunities in the IT industry to apply technical, problem-solving, and teamwork skills.

EDUCATION

- **SRI KRISHNA ARTS AND SCIENCE COLLEGE** — **COIMBATORE,TAMILNADU**
  2023-2026
  Bachelor of Computer Science and Applications
  CGPA - 7.9/10
- **CMS MATRIC HIGHER SECONDARY HIGHER SECONDARY SCHOOL** — **COIMBATORE,TAMILNADU**
  2021-2023
  HSC Percentage: 72

PROJECTS

SMART ENERGY METER USING MACHINE LEARNING

- Developed a machine learning–based Smart Energy Meter to analyze and predict electricity consumption
- Technologies Used : Python, Machine Learning, Linear Regression, Random Forest, Pandas, NumPy

Network Security Audit Tool (NSAT)

- Contributed to developing a Network Security Audit Tool to identify vulnerabilities and generate security reports using Python, backend integration, and dashboard development.
- Technologies Used: Python, Network Scanning, JavaScript, MySQL

TECHNICAL SKILLS

Programming Languages: Python, JavaScript (ES6+)
Frontend Technologies: HTML5, CSS3, Responsive Web Design
Database: MySQL
Machine Learning: Scikit-learn, Linear Regression, Random Forest, Pandas, NumPy
Tools & Platforms: Git, REST APIs, Figma, Canva

CERTIFICATIONS

- Oracle Certified Professional – Autonomous Database Cloud 2025
- NPTEL: Cloud Computing
- Cloud Masterclass – Cloud Practitioner Essentials in NASSCOM

ACHIEVEMENTS & ACTIVITIES

- Presented and published a research paper on “Next-Generation Firewalls: Advancements and Challenges in Network Security.
- Achieved 2nd Prize in a department-level hackathon competition.

LANGUAGES

- Tamil (Native)
- English (Professional Proficiency)
